

Payment Options

JLH Photography accepts payments in the form of cash, check, money order, or secure credit / debit card payment through PayPal. As I previously mentioned, I try to be as flexible as possible when it comes to payment. You can make arrangements with me for partial payments at your own discretion, monthly invoices, or to pay in lump sum.

FAQS

Do you travel anywhere?

Yes, I travel to any destination! The travel fee is based on the round-trip mileage, set session or wedding time, and time-length that I will be shooting for you. All these factors will determine the travel fee cost, and I can provide you a quote for this prior to your booking, if necessary.

Is there a limit to the number of photos you take, the number of clothing changes we're allowed, or the number of locations we shoot at?

The answer is no. I shoot an undetermined number of photos during any session or event. You are not restricted to stay at a certain number of images. As long as our session remains within the time frame allotted, you can alter your wardrobe and change locations as much as you want.

I know the service fees for my session / event, and I'm agreeable to them. However, what all do those fees give me?

My service fees for all shooting cover the cost of my shooting time itself, travelling time and expenses (within a 30 mile radius), my personally creative approach and composition of your images, full professional editing and post processing, convenient online gallery hosting for viewing and ordering your images, and access to the best quality and most modern variety of photo products on today's market.
