

Editing Schedule

The editing schedule for JLH Photography is as follows:

Full Coverage Weddings – 6 to 8 weeks
Lifestyle Portrait Sessions – 3 to 4 weeks

Depending on what time of year your session or event falls, these times may vary. I do try to expedite the editing process for births and newborns, making sure that these images are finished within about a 2-week period. No matter what type of photography I'm providing you with, you'll receive preview images on FB and the blog and a full password-protected online gallery with access to amazing custom products on my website.
